CORPORATE PRESENTATION

FORWARD LOOKING STATEMENTS

This corporate presentation contains forward-looking information and forward-looking statements (collectively, "forward-looking statements") under applicable securities laws, including any applicable "safe harbor" provisions. Statements other than statements of historical fact contained in this document may be forward looking statements, including, without limitation: management's expectations, intentions and beliefs concerning the growth, results of operations, performance of the Corporation and the Private Company Partners, the future financial position or results of the Corporation, business strategy and plans and objectives of or involving the Corporation or the Partners. Many of these statements can be identified by looking for words such as "believe", "expects", "will", "intends", "projects", "anticipates", "estimates", "continues" or similar words or the negative thereof. In particular, this document may contain forward-looking statements regarding: the anticipated financial and operating performance of the Corporation's Partners; the impact of COVID-19 on the operations of the Corporation and those of its Partners; the Earnings Coverage Ratio for the Partners; amendments to the Corporation's senior credit agreement; the amount of the Corporation's dividend (both quarterly and on an annualized basis); the use of proceeds from the Corporation's senior credit facility; the CRA proceedings (including the expected timing and financial impact thereof); the impact of a change in U.S tax legislation; annualized net cash from operating activities; changes in Distributions from Partners; the proposed resolutions to outstanding issues with certain Partners; the restart of Distributions from any partners not currently paying a Distribution or increasing the level of Distribution where a Partner is paying less than the full contracted amount; the timing for collection of deferred or unpaid Distributions; impact of new capital deployment; impact of the reduction in the Corporation's dividend; and Alaris' ability to attract new private businesses to invest in. To the extent that any forward-looking statements herein constitute a financial outlook, including without limitation, estimated revenue, distributions and expenses, dividends to be paid, the impact of capital deployment and changes in distributions from Partners, they were approved by management as of the date hereof and have been included to assist readers in understanding management's current expectations regarding Alaris' financial performance and are subject to the same risks and assumptions disclosed herein. There can be no assurance that the plans, intentions or expectations upon which these forward-looking statements are based will occur. Forward-looking statements are subject to risks, uncertainties and assumptions and should not be read as guarantees or assurances of future performance. Accordingly, readers are cautioned not to place undue reliance on any forward-looking information contained in this presentation. Statements containing forward looking information reflect management's current beliefs and assumptions based on information in its possession on the date of this presentation. Although management believes that the expectations represented in such forward looking statements are reasonable, there can be no assurance that such expectations will prove to be correct.

By their nature, forward-looking statements require Alaris to make assumptions and are subject to inherent risks and uncertainties. Assumptions about the performance of the Canadian and U.S. economies over the next 24 months and how that will affect Alaris' business and that of its Partners (including, without limitation, the ongoing impact of the COVID-19) are material factors considered by Alaris management when setting the outlook for Alaris. Key assumptions include, but are not limited to, assumptions that: the Canadian and U.S. economies will begin to recover from the ongoing economic downturn created by the response to COVID-19 within the next twelve months; interest rates will not rise in a material way over the next 12 to 24 months, that those Partners detrimentally affected by COVID-19 will recover from the pandemic's impact and return to their current operating environments; following a recovery from the COVID-19 impact, the businesses of the majority of our Partners will continue to grow; more private companies will require access to alternative sources of capital; and that Alaris will have the ability to raise required equity and/or debt financing on acceptable terms. Management of Alaris has also assumed that that the Canadian and U.S. dollar trading pair will remain in a range of approximately plus or minus 15% of the current rate over the next 6 months. In determining expectations for economic growth, management of Alaris primarily considers historical economic data provided by the Canadian and U.S. governments and their agencies as well as prevailing economic conditions at the time of such determinations.

FORWARD LOOKING STATEMENTS

Some of the factors that could affect future results and could cause results to differ materially from those expressed in the forward looking statements contained herein include risks relating to: the ongoing impact of the COVID-19 pandemic on the Corporation and its Partners (including, without limitation how many Partners will experience a slowdown or closure of their business and the length of time of such slowdown or closure); management's ability to assess and mitigate the impacts of COVID-19; the dependence of the Corporation on the Partners; risks relating to the Partners and their businesses; reliance on key personnel; general economic conditions, including the ongoing impact of COVID-19 on the Canadian, U.S. and global economies; failure to complete or realize the anticipated benefits of transactions; limited diversification of Alaris' transactions; management of future growth; availability of future financing; inability to close new partner contributions in a timely fashion on anticipated terms, or at all; competition; government regulation; leverage and restrictive covenants under credit facilities; the ability of the Partners to terminate (by way of a redemption) the various agreements with Alaris or a material portion of Alaris investment; unpredictability and potential volatility of the trading price of the common shares; fluctuations in the amount of cash dividends; income tax related risks; ability to recover from the Partners for defaults under the various agreements with Alaris; potential conflicts of interest; dilution; changes in the financial markets; risks associated with the Partners and their respective businesses; a change in the ability of the Partners to continue to pay Alaris at expected Distribution levels or restart Distributions (in full or in part); a failure to collect material deferred Distributions; a material change in the operations of a Partner or the industries in which they operate; a failure to realize the benefits of any concessions or relief measures provided by Alaris to any Partner or to successfully execute an exit strategy for a partner where desired; a failure to obtain by the Corporation or the Partners required regulatory approvals on a timely basis or at all; changes in legislation and regulations and the interpretations thereof; litigation risk associated with the CRA's reassessment and the Corporation's challenge thereof; and material adjustments to the unaudited internal financial reports provided to Alaris by the Partners.

Information in the Corporation's annual management discussion and analysis for the year ended December 31, 2019, identifies additional factors that could affect the operating results and performance of the Corporation. Without limitation of the foregoing assumptions and risk factors, the forward looking statements in this presentation regarding the revenues anticipated to be received from the Partners and the Corporation's general and administrative expenses are based on a number of assumptions including no adverse developments in the business and affairs of the Partners that would impair their ability to fulfill their payment obligations to the Corporation and no material changes to the business of the Corporation or current economic conditions that would result in an increase in general and administrative expenses.

The forward-looking statements contained herein are expressly qualified in their entirety by this cautionary statement. The forward-looking statements included in this presentation are made as of the date of this presentation and Alaris does not undertake or assume any obligation to update or revise such statements to reflect new events or circumstances except as expressly required by applicable securities legislation.

DEFINING THE CORPORATION

Alaris' long term goal is to create the optimal dividend stream available for investors.

Alaris provides capital to private businesses using an innovative structure that fills a niche in the private capital markets.

INVESTMENT HIGHLIGHTS

The best companies in the world are never for sale. Alaris' unique investment structure generates attractive returns from a universe of businesses that would be otherwise unavailable to traditional equity investors

- Unique investment strategy combines equity like returns with debt like protections
- Existing portfolio is generating an attractive baseline cash yield of 13%, with potential for incremental growth
- Robust and consistent investment pipeline
- Highly scalable business model with low overhead costs, resulting in EBITDA margins in excess of 80%
- Highly experienced management team with a demonstrated track record of generating realized returns of 17% on exited investments

ALARIS REPRESENTS A UNIQUE ASSET CLASS

Equity-Like Returns

- Attractive initial cash yields with participation in growth through an annual adjustment
- Adjustment tied to top-line growth in the underlying business
- Exposure to market-leading businesses that are not otherwise accessible to traditional equity investors
- In the event its investment is repurchased, Alaris is entitled to receive a premium in addition to the return of its original invested capital

Debt-Like Protections

- Comprehensive set of rights and remedies
- Consent rights over material changes in the underlying business of the Partner Companies
- Non-payment of distributions constitutes an event of default
- Uncured remedies include the ability to assume a more active role in management, and if necessary, take voting control
- Ultimately, Alaris can require the repurchase of its investment or engage in a controlled sales process

(1) Reflects weighted average initial yield of realized investments

(2) Reflects IRR with impact of distribution adjustments and debt contributions (excludes Group SM, KMH and SHS)

(3) Reflects incremental IRR achieved from redemption premiums (excludes Group SM, KMH and SHS)

(4) Reflects impact on IRR from remediated investments (includes Group SM, KMH and SHS)

BENEFITS TO SHAREHOLDERS

Five Pillars to the Optimal Dividend

Low Volatility of Cash Flows

- Alaris' preferred distributions are:
- ✓ based on top-line performance and paid in priority to other equity
 - ✓ covered by a cash-flow buffer and protective covenants
 - ✓ paid monthly providing monthly cash returns vs returns on an exit
 - ✓ volatility reducing collars on >90% of current distributions

Visibility of Cash Flows

- ✓ Alaris adjusts its distributions from Partner's annually and for 12 months
- ✓ Financial health of Partners is monitored closely each month
- ✓ The Corporation has relatively low SG&A expenses relative to profitability which has proven the scalability of the model

Diversification of Revenue Streams

- ✓ Currently have 17 Partners
- ✓ Long-term goal is to have no single revenue stream >10% of total revenue

Liquidity for Shareholders

- ✓ Average daily trading volumes provide adequate liquidity for shareholders

Growth in Cash Flow Per Share

- ✓ Historic organic growth in Partner revenues of 1% to 6% per year
- ✓ Add to cash flow per share through accretive capital deployments
- ✓ Historic growth led to 11 consecutive dividend increases since April 2010

BENEFITS TO BUSINESS OWNERS

Non-Voting Preferred Equity	✓ Allows the entrepreneur to continue to run their successful businesses with minimal interference by Alaris
Long-Term Capital Partner	<ul style="list-style-type: none"> ✓ Alaris does not require an exit ✓ This allows the entrepreneur to focus on long-term goals rather than short-term goals of its equity sponsor
Tax Efficient	✓ The distributions paid to Alaris are essentially pre-tax as they lower the taxable income of remaining partners
Lower Participation in Growth	✓ Alaris reduces its participation in the growth of the business through the use of collars on its distribution and by basing the performance metric on the organic change in the business versus total growth

ALARIS VERSUS OTHER SOURCES OF CAPITAL: WHY CHOOSE ALARIS?

	Debt	Alaris	Traditional Private Equity
Operating Control	✓ None	✓ None	⊗ Needs control
Time Horizon	⊗ 3 – 5 years	✓ Indefinite	⊗ 3-6 years
Growth Participation	✓ Minimal	✓ Capped	⊗ Full carry
Future Funding	⊗ Maxes out	✓ Unlimited	⊗ Maxes out
Dilution	⊗ Warrants	✓ Preferred shares	⊗ Common equity
Deal Fees	⊗ Yes	✓ No	⊗ Yes

ALARIS' IDEAL PARTNER CRITERIA

Old Economy Business

- ✓ Required services or products in mature industries
- ✓ Businesses with a risk of obsolescence or a declining asset base are not a good fit

Track Record of Free Cash Flow

- ✓ Alaris looks at historical free cash flow to predict sustainability of its distribution
- ✓ More free cash flow is required if a business displays more volatility of cash flows

Low Levels of Debt and Capital Expenditure Requirements

- ✓ Debt levels can vary amongst our Partners depending on industry, but typically a business must have low levels of debt in its capital structure
- ✓ If a business requires excessive capital expenditures to maintain current cash flow it is likely not a candidate for Alaris

Management Continuity

- ✓ Alaris does not manage the business of its Partners, therefore it relies on the ownership group/management team to continue to run the business
- ✓ Alaris invests in companies that are “not for sale”, where management wants to stay in and grow instead of exiting

- (1) These are contracted amounts due to Alaris for the next 12 month period and for those denominated in USD based on a rate of USDCAD \$1.3500. Actual amounts received may vary based on the impact of COVID-19 and changes in the exchange rate.
- (2) Distributions from PFGP and BCC were deferred for Q2 2020 as a result of COVID-19 and its impact to each of their businesses. BCC is expected to resume distribution for Q3 while PFGP timing is still unknown. Plans to make up deferred distributions will be determined at a later date but Alaris does expect to collect all deferred distributions from BCC and PFGP.
- (3) SCR is paying partial distributions to Alaris of \$350 thousand per month (\$4.2m annually).
- (4) Kimco began paying partial distributions in July 2020 at US\$100,000 per month.
- (5) ccComm and Providence are not currently paying distributions to allow for any excess funds to be used in the business, Alaris will record distributions as received when their cash flows allow.

- ✓ Alaris has generated \$408.9 million in total returns (+63%) on partners that have either repurchased all of Alaris' units, ceased operations or where Alaris carries no fair value for preferred units from such partner.
- ✓ The monthly distribution Alaris receives from its Partners ensures Alaris is getting a return on investment from Day 1, rather than on an exit event. This greatly reduces the investment risk.

- (1) MAHC repurchased Alaris' units after 1 year, resulting in an additional 24 months of distributions being paid to Alaris on exit. This resulted in an IRR much higher than what is expected.
- (2) Alaris no longer has preferred units in KMH. However, KMH continues to have a financial obligation to Alaris regarding notes outstanding.
- (3) Sandbox exit capital received excludes an additional US\$4.0 million currently held in escrow and the potential for a US\$2.0 million earnout. Returns on senior debt are included.
- (4) SHS went into receivership in December 2013, therefore no exit capital was received.
- (5) Alaris is not recording any value for remaining preferred units in SM. However, SM continues to have a financial obligation in the future should the business turn around.
- (6) Promissory notes outstanding with any partners are not included in the table above.
- (7) All returns are in Canadian dollars.

SCR and Kimco's ECRs are based on their current fixed distributions as opposed to fully contracted

- The table to the left displays the range of earnings coverage ratios ("ECR") for each of our Partners over the last 4 quarters. Generally speaking, a ratio above 1.0x provides enough earnings to cover distributions to Alaris, interest and principal payments to lenders as well as unfunded capital expenditures.
- Of the 17 partners listed, three fall below less than 1.0x earnings coverage, two are in the 1.2x to 1.5x range, seven are in the 1.5x to 2.0x range and five are in the >2.0x earnings coverage range.
- In Q2-20 vs Q1-20, 10 Partners had no change in the ECR range, 4 had increases to their ECR range and 2 had a decrease in the ECR range, and there was 1 new Partner.
- These ECRs are based on historical results and in most cases prior to any impact of the COVID-19 pandemic. Partner company ECRs may decrease in future periods as a result of the eventual impact to the businesses of COVID-19.

DIVIDEND HISTORY AND SUSTAINABILITY

- Since 2008 Alaris has provided consistent dividend income through its monthly dividend.
- In March 2020, Alaris made the decision to change its dividend from monthly to quarterly. The first payment of such quarterly dividend was in July. This dividend covered dividends for April, May and June 2020.
- The new annualized dividend for the July payment was changed to \$1.16 per share (\$0.29 per quarter). This was a reduction of 30% from the previous annualized dividend of \$1.65.
- The new dividend rate not only reflects what we expect to be a short-term cash flow disruption associated with the COVID-19 pandemic, but moving forward it will allow us to achieve our long-term payout ratio objectives as well as being able to internally fund a portion of our annual deployment once our cash flow streams from our partners normalize.
- Alaris announced that it will be converting to an income trust after shareholder approval on August 31, 2020. At that time it will be paying trust distributions vs a corporate dividend and it intends on raising trust distributions to \$0.31 per quarter (\$1.24 annually). This is a 7% increase compared to the current dividend paid.
- With a large amount of capital available on our balance sheet and a lower dividend, we are in a very good position to take advantage of the opportunities that will present themselves coming out of this pandemic.
- Since inception, Alaris has paid over 140 consecutive monthly dividends totaling more than \$16 per share and over \$450 million gross.
- If you were to have invested \$100,000 at the IPO price of \$12 per share in 2008 you would have received a cumulative total of \$137,145 in dividends (bottom right table) and your initial investment would be worth \$103,750 on July 28, 2020 (based on closing price of \$12.45) for a total return of \$240,895.

TRUST CONVERSION

On July 23, 2020, Alaris announced that its Board of Directors approved the conversion of the corporation to an income trust (the “Arrangement”) pending shareholder approval at a special meeting to be held August 31, 2020. The Board unanimously determined that the Arrangement is fair to shareholders and in the best interests of Alaris and unanimously recommends that the shareholders vote for the Arrangement. The Board made its determination based upon consultation with its legal and other advisors, and based in part on the fairness opinion received from Acumen Capital Finance Partners Limited (“Acumen”). The determination of the Board is based on various factors to be described more fully in the Information Circular (and includes (among others) the following anticipated benefits that the Corporation believes will enhance long-term shareholder value:

- a materially simplified cross-border investment structure involving fewer foreign jurisdictions, which should reduce compliance and other administrative costs and Alaris' exposure to changes in foreign laws;
- increasing the amount of cash available for distribution to unitholders and reducing the Payout Ratio; and
- allowing Alaris to comply with applicable US legislation while maintaining an internal efficiency substantially consistent with Alaris' current structure.

Acumen has provided the Board with its opinion that the consideration to be received by shareholders pursuant to the Arrangement is fair, from a financial point of view, to shareholders (other than Non-Eligible US Shareholders), subject to the assumptions, limitations and qualifications set out in such fairness opinion, as further described in the Circular.

As an income trust, Alaris will be paying a trust distribution rather than a corporate dividend. This trust distribution is expected to increase to \$0.31 per quarter (\$1.24 annually) up 7% from the current corporate dividend of \$0.29 per quarter (\$1.16 annually). The first trust distribution (pending shareholder approval of the Arrangement) will be declared in September 2020 and paid October 15, 2020.

As a part of the conversion to an income trust, Alaris will be changing its name to Alaris Equity Partners Income Trust.

SCALABLE MODEL

- Alaris' unique structure, which gives it protections that allow for a non-controlling investment, allows it to be a monitor of its Partners, not an operator.
- For the addition of every 5 new (net) Partners, Alaris would likely have to add 1 employee to the monitoring team.

Alaris' model is highly scalable

NON-IFRS MEASURES

The terms EBITDA, Normalized EBITDA and Payout Ratio are financial measures used in this presentation that are not standard measures under International Financial Reporting Standards ("IFRS"). The Corporation's method of calculating EBITDA, Normalized EBITDA and Payout Ratio may differ from the methods used by other issuers. Therefore, the Corporation's EBITDA, Normalized EBITDA and Payout Ratio may not be comparable to similar measures presented by other issuers.

EBITDA refers to net earnings (loss) determined in accordance with IFRS, before depreciation and amortization, net of gain or loss on disposal of capital assets, interest expense and income tax expense. EBITDA is used by management and many investors to determine the ability of an issuer to generate cash from operations. Management believes EBITDA is a useful supplemental measure from which to determine the Corporation's ability to generate cash available for debt service, working capital, capital expenditures, income taxes and dividends. The Corporation provides a reconciliation of net income to EBITDA in its quarterly and annual management discussion and analysis.

Normalized EBITDA refers to EBITDA excluding items that are non-recurring in nature, such as gains associated with the reduction of interest in one partner and an impairment loss in another with which the Corporation has transacted. Management deems non-recurring charges to be unusual and/or infrequent charges that the Corporation incurs outside of its common day-to-day operations. Adding back these non-recurring charges allows management to better assess EBITDA from ongoing operations.

Payout Ratio: The term "payout ratio" is a financial measure used in this presentation that is not a standard measure under International Financial Reporting Standards. Actual Payout ratio means Alaris' total dividends paid over a fiscal year divided by its net cash from operating activities over that same period. Annualized Payout Ratio means Alaris' total annualized dividend per share expected to be paid over the next twelve months divided by the estimated net cash from operating activities per share Alaris expects to generate over the same twelve month period (after giving effect to the impact of all information disclosed to date).

Run Rate Payout Ratio: refers to Alaris' total dividend per share expected to be paid over the next twelve months divided by the estimated net cash from operating activities per share Alaris expects to generate over the same twelve month period (after giving effect to the impact of all information disclosed as of the date of this report).

Earnings Coverage Ratio refers to the Normalized EBITDA of a Partner divided by such Partner's sum of debt servicing (interest and principal), unfunded maintenance capital expenditures and distributions to Alaris.

IRR refers to internal rate of return, which is a metric used to determine the discount rate that derives a net present value of cash flows to zero. Management uses IRR to analyze partner returns.

The terms EBITDA, Normalized EBITDA and Payout Ratio should only be used in conjunction with the Corporation's annual audited and quarterly reviewed financial statements, which are available on SEDAR at www.sedar.com.

Eligible Dividends

All dividends are designated by the Company to be eligible dividends for the purpose of the Income Tax Act (Canada) and any similar provincial or territorial legislation.
