

INVESTOR PRESENTATION

AUGUST 2022

FORWARD LOOKING STATEMENTS

This corporate presentation contains forward-looking information and forward-looking statements (collectively, “forward-looking statements”) under applicable securities laws, including any applicable “safe harbor” provisions. Statements other than statements of historical fact contained in this presentation may be forward looking statements, including, without limitation: management’s expectations, intentions and beliefs concerning the growth, results of operations, performance of the Trust and the Partners, the future financial position or results of the Trust, business strategy and plans and objectives of or involving the Trust or the Partners. Many of these statements can be identified by looking for words such as “believe”, “expects”, “will”, “intends”, “projects”, “anticipates”, “estimates”, “continues” or similar words or the negative thereof. In particular, this presentation contains forward-looking statements regarding: the anticipated financial and operating performance of the Partners; the ECR for the Partners; the Trust’s Run Rate Payout Ratio and Run Rate Revenue; the impact of the new investments in within the last 12 months as well as the follow-on investments, including, without limitation, the expected yield therefrom and the impact on the Trust’s net cash from operating activities, Run Rate Revenue, Run Rate Cash Flow and Run Rate Payout Ratio; the Trust’s consolidated expenses; expectations regarding receipt (and amount of) any common equity distributions from Partners in which Alaris holds common equity, including the impact on the Trust’s net cash from operating activities, Run Rate Revenue, Run Rate Cash Flow and Run Rate Payout Ratio; the amount of the Trust’s distributions to unitholders (both quarterly and on an annualized basis); the use of proceeds from the senior credit facility; the CRA proceedings (including the expected timing and financial impact thereof); potential Partner redemptions, including the timing, if at all, and amounts thereof; annualized net cash from operating activities; Run Rate Revenue and Run Rate Cash Flow; changes in Distributions from Partners; the proposed resolutions to outstanding issues with certain Partners; the timing for collection of deferred or unpaid Distributions; impact of new deployment; Alaris’ ability to deploy capital to and attract new private businesses to invest in and restarting Distributions from Partners not paying full contractual amounts; the impact of Alaris’ ESG Policy & Report. To the extent that any forward-looking statements herein constitute a financial outlook or future oriented financial information (collectively, “FOFI”), including estimates regarding revenues, expenses, distributions to be paid, the impact of capital deployment and changes in Distributions from Partners (including expected resets, restarting full or partial Distributions and common equity distributions), Run Rate Payout Ratio, Run Rate Cash Flow and net cash from operating activities, they were approved by management as of the date hereof and have been included to assist readers in understanding management’s current expectations regarding Alaris’ financial performance and are subject to the same risks and assumptions disclosed herein. There can be no assurance that the plans, intentions or expectations upon which these forward-looking statements are based will occur. Forward-looking statements are subject to risks, uncertainties and assumptions and should not be read as guarantees or assurances of future performance. Readers are cautioned that the assumptions used in the preparation of forward-looking statements, including FOFI, although considered reasonable at the time of preparation, based on information in Alaris’ possession as of the date hereof, may prove to be imprecise. In addition, there are a number of factors that could cause Alaris’ actual results, performance or achievement to differ materially from those expressed in, or implied by, forward looking statements and FOFI, or if any of them do so occur, what benefits the Trust will derive therefrom. As such, undue reliance should not be placed on any forward-looking statements, including FOFI.

FORWARD LOOKING STATEMENTS

By their nature, forward-looking statements require Alaris to make assumptions and are subject to inherent risks and uncertainties. Assumptions about the performance of the Canadian and U.S. economies over the next 24 months and how that will affect Alaris' business and that of its Partners (including, without limitation, any ongoing impact of the COVID-19 and global economic and political factors) are material factors considered by Alaris management when setting the outlook for Alaris. Key assumptions include, but are not limited to, assumptions that: the Canadian and U.S. economies will continue to stabilize from economic downturn created by COVID-19, the Russia/Ukraine conflict and global supply chain issues and will not be detrimentally impacted over the next twelve months; interest rates will not rise in a material way from market expectations over the next 12 months, that those Partners previously affected by COVID-19 will not see a detrimental impact from COVID-19 over the next 12 months; that those Partners detrimentally affected by COVID-19 and global economic factors (including the Russia/Ukraine conflict and global supply chain issues) will recover and return to their pre-pandemic operating environments; the businesses of the majority of the Partners will continue to grow; more private companies will require access to alternative sources of capital; the businesses of new Partners and those of existing partners will perform in line with Alaris' expectations and diligence; and that Alaris will have the ability to raise required equity and/or debt financing on acceptable terms. Management of Alaris has also assumed that the Canadian and U.S. dollar trading pair will remain in a range of approximately plus or minus 15% of the current rate over the next 6 months. In determining expectations for economic growth, management of Alaris primarily considers historical economic data provided by the Canadian and U.S. governments and their agencies as well as prevailing economic conditions at the time of such determinations.

There can be no assurance that the assumptions, plans, intentions or expectations upon which these forward-looking statements are based will occur. Forward-looking statements are subject to risks, uncertainties and assumptions and should not be read as guarantees or assurances of future performance. The actual results of the Trust and the Partners could materially differ from those anticipated in the forward-looking statements contained herein as a result of certain risk factors, including, but not limited to, the following: the ongoing impact of the COVID-19 pandemic on the Trust and the Partners (including how many Partners will experience a slowdown or closure of their business and the length of time of such slowdown or closure); management's ability to assess and mitigate the impacts of COVID-19; the dependence of Alaris on the Partners; leverage and restrictive covenants under credit facilities; reliance on key personnel; general economic conditions, including the ongoing impact of COVID-19 on the Canadian, U.S. and global economies; failure to complete or realize the anticipated benefit of Alaris' financing arrangements with the Partners; a failure to obtain required regulatory approvals on a timely basis or at all; changes in legislation and regulations and the interpretations thereof; risks relating to the Partners and their businesses, including, without limitation, a material change in the operations of a Partner or the industries they operate in; inability to close additional Partner contributions or collect proceeds from any redemptions in a timely fashion on anticipated terms, or at all; a change in the ability of the Partners to continue to pay Alaris at expected Distribution levels or restart distributions (in full or in part); a failure to collect material deferred Distributions; a change in the unaudited information provided to the Trust; and a failure to realize the benefits of any concessions or relief measures provided by Alaris to any Partner or to successfully execute an exit strategy for a Partner where desired. Additional risks that may cause actual results to vary from those indicated are discussed under the heading "Risk Factors" and "Forward Looking Statements" in Alaris' Management Discussion and Analysis and Annual Information Form for the year ended December 31, 2021, which is filed under Alaris' profile at www.sedar.com and on its website at www.alarisequitypartners.com.

FORWARD LOOKING STATEMENTS

Readers are cautioned that the assumptions used in the preparation of forward-looking statements, including FOFI, although considered reasonable at the time of preparation, based on information in Alaris' possession as of the date hereof, may prove to be imprecise. In addition, there are a number of factors that could cause Alaris' actual results, performance or achievement to differ materially from those expressed in, or implied by, forward looking statements and FOFI, or if any of them do so occur, what benefits the Trust will derive therefrom. As such, undue reliance should not be placed on any forward-looking statements, including FOFI.

The information contained in this presentation, and Alaris' annual management discussion and analysis for the year ended December 31, 2020, identifies additional factors that could affect the operating results and performance of the Trust. Without limitation of the foregoing assumptions and risk factors, the forward looking statements in this presentation regarding the revenues anticipated to be received from the Partners and the Trust's general and administrative expenses are based on a number of assumptions including no adverse developments in the business and affairs of the Partners that would impair their ability to fulfill their payment obligations to the Trust and no material changes to the business of the Trust or current economic conditions that would result in an increase in general and administrative expenses.

The Trust has included the forward-looking statements and FOFI in order to provide readers with a more complete perspective on Alaris' future operations and such information may not be appropriate for other purposes. The forward-looking statements, including FOFI, contained herein are expressly qualified in their entirety by this cautionary statement. Alaris disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

The forward-looking statements contained herein are expressly qualified in their entirety by this cautionary statement. The forward-looking statements included in this presentation are made as of the date of this presentation and Alaris does not undertake or assume any obligation to update or revise such statements to reflect new events or circumstances except as expressly required by applicable securities legislation.

US INVESTOR DISCLOSURE

The securities of Alaris Equity Partners Income Trust (“Alaris” or the “Trust”) have not been and will not be registered under the U.S. Investment Company Act of 1940, as amended (the “US Investment Company Act”) and Alaris is relying on the exemption from registration under the US Investment Company Act provided by Section 3(c)(7) of that Act. As such, securities of Alaris, and any beneficial interest therein, may not be purchased, offered, sold, pledged, or otherwise transferred except in accordance with specific restrictions necessary to comply with that exemption. Specifically, securities of Alaris must not be offered, purchased, sold or otherwise transferred or pledged, directly or indirectly, in the United States or to U.S. Persons (as defined in Regulation S under the U.S. Securities Act of 1933, as amended). In addition, beneficial owners of the securities of Alaris must be restricted to persons that: (a) are located outside the United States and that are not U.S. persons, or (b) are Qualified Purchasers as defined in Section 2(a)(51)(A) of the US Investment Company Act that provide certain certifications confirming that status; and (c) in either case, are not plans that are “employee benefit plans” (within the meaning of Section 3(3)) of the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”) that are subject to Part 4 of Subtitle B of Title 1 of ERISA, or plans, individual retirement accounts or other arrangements that are subject to Section 4975 of the U.S. Internal Revenue Code of 1986, as amended, or any other state, local, non-U.S. or other laws or regulations that would have the same effect as the regulations promulgated under ERISA.

PROFILE

Notes:
(All unit price data as of closing price on, August 9, 2022)

Corporate Summary

DEFINING THE BUSINESS

Alaris' long term goal is to create the optimal income stream available for investors

Alaris provides capital to private businesses using an innovative structure that fills a niche in the private capital markets

ACCESS TO PRIVATE EQUITY MARKET

- The potential for competitive returns by accessing private companies has been traditionally reserved for institutional investors and high-net-worth individuals.
- In 1996, there were more than 8,000 public companies. Today there are approximately 50% less, where only 2% of middle-market companies are publicly traded.
- Without access to private companies, investors may be missing out on the potential to achieve meaningful returns outside of the traded public markets, which can experience unpredictability and daily volatility
- Alaris offers access into a unique asset class and a way to invest in a portfolio of high-quality, industry leading private companies that have only been accessible to the wealthiest financial institutions.

INVESTMENT HIGHLIGHTS

The best companies in the world are never for sale. Alaris' unique investment structure generates attractive returns from a universe of businesses that would be otherwise unavailable to traditional equity investors

1

Unique investment strategy combines equity like returns with debt like protections

2

Existing portfolio is generating an attractive baseline cash yield of 13%, with potential for incremental growth

3

Robust and consistent investment pipeline

4

Highly scalable business model with low overhead costs, resulting in EBITDA margins in excess of 80%

5

Highly experienced management team with a demonstrated track record of generating realized returns of 16% on exited investments

ALARIS REPRESENTS A UNIQUE ASSET CLASS

Equity-Like Returns

- Attractive initial cash yields with participation in growth through an annual adjustment
- Adjustment tied to top-line growth in the underlying business
- Exposure to market-leading businesses that are not otherwise accessible to traditional equity investors
- In the event its investment is repurchased, Alaris is entitled to receive a premium in addition to the return of its original invested capital

Debt-Like Protections

- Comprehensive set of rights and remedies
- Consent rights over material changes in the underlying business of the Partner Companies
- Non-payment of distributions constitutes an event of default
- Uncured remedies include the ability to assume a more active role in management, and if necessary, take voting control
- Ultimately, Alaris can require the repurchase of its investment or engage in a controlled sales process
- Remedies for uncured defaults include the ability to assume a more active role in management, and if necessary, take voting control

- (1) Reflects weighted average initial yield of realized investments
- (2) Reflects IRR with impact of distribution adjustments and debt contributions (excludes Group SM, KMH, SHS and Providence)
- (3) Reflects incremental IRR achieved from redemption premiums (excludes Group SM, KMH, SHS and Providence)
- (4) Reflects impact on IRR from remediated investments (includes ccComm, Group SM, KMH, Sandbox, SHS and Providence)

BENEFITS TO UNITHOLDERS

Five Pillars to the Optimal Income Stream

Low Volatility of Cash Flow

Alaris' preferred distributions are:

- Based on top-line performance and paid in priority to other equity
- Covered by a cash-flow buffer and protective covenants
- Paid monthly/quarterly providing steady cash returns vs returns on an exit
- Volatility reducing collars on >90% of current distributions

Visibility of Cash Flows

- Alaris adjusts its distributions from Partners annually and for 12 month periods
- Financial health of Partners is monitored closely each month
- The Trust has relatively low SG&A expenses relative to profitability which has proven the scalability of the model

Diversification of Revenue Streams

- Currently have 18 Partners
- Long-term goal is to have no single revenue stream >10% of total revenue (currently one partner >10% of revenue)

Liquidity for Unitholders

- Average daily trading volumes provide adequate liquidity for unitholders

Growth in Cash Flow per Unit

- Historic organic growth in Partner revenues of 1% to 8% per year
- Add to cash flow per unit through accretive capital deployment

BENEFITS TO BUSINESS OWNERS

Non- Voting Preferred Equity	Allows the entrepreneur to continue to run their successful businesses with minimal interference by Alaris.
Long-Term Capital Partner	Alaris does not require an exit. This allows the entrepreneur to focus on long-term goals rather than short-term goals of its equity sponsor.
Tax Efficient	The distributions paid to Alaris are essentially pre-tax as they lower the taxable income of remaining partners.
Lower Participation in Growth	Alaris reduces its participation in the growth of the business through the use of collars on its distribution and by basing the performance metric on the organic change in the business versus total growth.

BENEFITS TO BUSINESS OWNERS

Alaris versus other sources of capital: Why choose Alaris?

	Debt	Alaris	Traditional Private Equity
Operating Control	None	None	Needs Control
Time Horizon	3-5 Years	Indefinite	3-6 Years
Growth Participation	Minimal	Capped	Full Carry
Future Funding	Maxes Out	Unlimited	Maxes Out
Dilution	Warrants	Preferred Shares	Common Equity
Deal Fees	Yes	No	Yes

ALARIS' IDEAL PARTNER CRITERIA

Old Economy Business

- Required services or products in mature industries
- Businesses with a risk of obsolescence or a declining asset base are not a good fit

Track Record of Free Cash Flow

- Alaris looks at historical free cash flow to predict sustainability of its distribution
- More free cash flow is required if a business displays more volatility of cash flows

Low Debt Levels & Capital Expenditure Requirements

- Debt levels can vary amongst our Partners depending on industry, but typically a business must have low levels of debt in its capital structure
- If a business requires excessive capital expenditures to maintain current cash flow it is likely not a candidate for Alaris

Management Continuity

- Alaris does not manage the business of its Partners, therefore it relies on the ownership group/management team to continue to run the business
- Alaris invests in companies that are “not for sale”, where management wants to stay in and grow instead of exiting

PARTNER REVENUE SUMMARY

Partner	Annual Distribution (CAD\$000s) ⁽¹⁾	% of total
Body Contour Centers	27,182	17.1%

Stride	728	0.5%
Total Annualized Partner Revenue	\$ 155,581	97.6%
Common Equity Dividends ⁽⁴⁾	3,752	2.4%
Total Revenue	\$ 159,333	100.0%

(1) These are contracted amounts due to Alaris for the next 12 month period and for those denominated in USD based on a rate of USDCAD \$1.28.

(2) In July 2021, Alaris began receiving full distributions equal to US\$9.4 million on an annualized basis. Alaris and PFGP have previously agreed to a payment plan on all deferred distributions with payments to begin in January 2022, or earlier if cash flows and bank covenants allow. The deferred distributions of US\$9.1 million will be repaid in monthly US\$0.2 million instalments until the balance is nil.

(3) SCR is paying partial distributions to Alaris of \$0.35 million per month (\$4.2 million annually). SCR and Alaris have agreed where in addition to the base annual amount of \$4.2 million, SCR will pay an amount semi-annually based on the free cash flow of their business. Estimated additional cash flow sweep for 2022 is \$0.3 million.

(4) Common Equity Dividends are an estimated amount and could include amounts from FNC, Amur, Carey Electric & D&M.

REVENUE
SUMMARY

Percent Organic Change in Organic Revenue

DIVERSIFICATION

Investment by Country

■ Canada ■ US

Investment by Industry Segment

■ Consumer Products/ Services
■ Consumer Financial Services
■ Business Services
■ Industrial

- Alaris has approximately **87%** of its fair value of investments in US based companies.
- Today, **27%** of invested dollars are exposed to industrials, **31%** to business services, **20%** consumer financial services **21%** to consumer products and services.

PREFERRED EQUITY RETURNS FROM EXITS TO DATES

- Alaris has generated \$545.3 million in total returns (+65%) on partners that have either repurchased all of Alaris' units, ceased operations or where Alaris carries no fair value for preferred units from such partner.
- The monthly or quarterly distributions Alaris receives from its Partners ensures Alaris is getting a return on investment from Day 1, rather than on an exit event. This greatly reduces the investment risk.

\$millions CAD	Number of		Distributions Received	Exit Capital Received	Total Return	% total Return	IRR %

Group SM	4.6	(40.5)	9.8	-	(30.7)	-76%	-67%
Totals		\$ (843.3)	\$ 550.1	\$ 838.6	\$ 545.3	65%	

(1) MAHC repurchased Alaris' units after 1 year, resulting in an additional 24 months of distributions being paid to Alaris on exit. This resulted in an IRR much higher than what is expected.

(2) Sandbox exit capital received excludes an additional US\$4.0 million currently held in escrow and the potential for a US\$2.0 million earn out. Returns on senior debt are included.

(3) Providence is expected to be wound up and Alaris does not anticipate any proceeds from such process.

(4) SHS went into receivership in December 2013, therefore no exit capital was received.

EARNINGS COVERAGE HEAT MAP

- The table to the right displays the range of earnings coverage ratios (“ECR”) for each of our Partners over the last 4 quarters. Generally speaking, a ratio above 1.0x provides enough earnings to cover distributions to Alaris, interest and principal payments to lenders as well as unfunded capital expenditures.
- Of the 18 partners listed, one is in the 1.0x to 1.2x range, three are in the 1.2x to 1.5x range, three are in the 1.5x to 2.0x range and eleven are in the >2.0x earnings coverage range.
- In Q2-21 vs Q2-22, thirteen Partners had no change in the ECR range, three had increases to their ECR range, and two had a decrease to their ECR range.

(1) This covenant includes a maximum funded debt to contracted EBITDA of 2.5:1 and can be increased to 3.0:1 for up to 90 days.

(2) Calculated as of June 30, 2022.

(3) Alaris has \$100 million face value of Convertible Debentures bearing interest of 5.50% per annum, payable semi-annually with a maturity of June 30, 2024. Alaris also has \$65 million face value of senior debentures bearing interest of 6.25% per annum, payable semi-annually with a maturity of March 31, 2027.

DISTRIBUTION HISTORY & SUSTAINABILITY

- Since 2008 Alaris has provided consistent dividend income through its monthly dividend, and now, through trust distributions.
- In March 2020, Alaris made the decision to change its dividend from monthly to quarterly. The first payment of such quarterly dividend was in July. The new annualized dividend for the July payment was changed to \$1.16 per share (\$0.29 per quarter). This was a reduction of 30% from the previous annualized dividend of \$1.65.
- Alaris announced the conversion to an income trust on September 1, 2020. At that time Alaris raised the quarterly distributions to \$0.31 per quarter (\$1.24 annually). This was a 7% increase compared to the previous dividend paid and was done to reflect the difference in taxation of a trust distribution vs a corporate dividend.
- On July 28, 2021, Alaris announced an increase of \$0.08 (6.5%) per unit to its distribution payable October 2021. The Annualized distribution will now be \$1.32 per unit (\$0.33 per quarter).
- Since inception, Alaris has paid over 150 consecutive monthly or quarterly dividends/distributions totaling more than \$17.80 per share/unit and over \$520 million gross.
- If you were to have invested \$100,000 at the IPO price of \$12 per share in 2008 you would have received a cumulative total of \$157,333 in dividends/distributions (bottom right table) and your initial investment would be worth \$146,667 on Aug 9, 2022 (based on closing price of \$17.72) for a total return of \$304,000.

ESG AT ALARIS

Environmental

Alaris has adopted a phased approach to implementing the

Task Force on Climate-Related Financial Disclosures (TCFD)

recommended guidelines and the Trust is working continuously to improve its strategies around sustainability.

In 2021:

Over \$110,000

were donated to the community through Alaris' charity programs

38% of the total workforce are women

27% of all management positions were held by women

7/18 (~39%)
of Alaris' Private Company Partners are women/minority-owned businesses

Governance

DISTRIBUTIONS – TAX INFORMATION

In 2021, Alaris distributed \$1.28 per trust unit to unitholders. Unitholders will pay tax on such distributions based on the *character* of the distributions. As shown in the table below, 77.5% of the distributions are taxed as *Regular Income* in the hands of the unitholders, 0.76% of distributions are taxed as *Dividends*, and 21.7% of distributions are *Return of Capital* (not taxable). The overall blended tax rate for a unitholder is 37.5%. This can be compared to the overall applicable tax rate on a dividend from a corporation in Canada which is 34.3%, as displayed in the right hand column.

	% of Trust Distribution	% of Corporation
Regular Income	77.5%	-
Dividend	0.76%	100%
Return of Capital	21.7%	-
Total Blended Tax Rate	37.5%	34.3%

SCALABLE MODEL

Alaris' model is highly scalable
Revenue Growth vs Operating Expenses

- Alaris' unique structure, which gives it protections that allow for a non-controlling investment, allows it to be a monitor of its Partners, not an operator.
- For the addition of every 5 new (net) Partners, Alaris would likely have to add 1 employee to the monitoring team.

RECENT FINANCIAL RESULTS

Three months ended June 30, 2022 vs same period 2021:

- 62% increase in revenue from Partners to \$56.5 million
- 51% increase in cash generated from operations prior to changes in working capital ¹ to \$44.4 million
- 7.2% increase in distributions declared to \$14.9 million

Per Unit highlights:

- 60.3% increase in revenue from Partners to \$1.25
- 50.8% increase in cash generated from operations prior to changes in working capital ¹ to \$0.98
- 6.5% increase in distributions declared at \$0.33

Six months ended June 30, 2022 vs same period 2021:

- 43% increase in revenue from Partners to \$96.1 million
- 46% increase in cash generated from operations prior to changes in working capital ¹ to \$79.7 million
- 7.2% increase in distributions declared to \$29.9 million

Per Unit highlights:

- 35.0% increase in revenue from Partners to \$2.12
- 37.5% increase in cash generated from operations prior to changes in working capital ¹ to \$1.76
- 6.5% increase in distributions declared at \$0.66

(1) Due to the changes in non-GAAP measures we are no longer presenting normalized EBITDA. Replacing this metric is cash generated from operations prior to changes in working capital. This metric does include the effects of unit-based compensation expense and current income tax as compared to normalized EBITDA. In prior periods the material normalizing items primarily related to unrealized gains or losses in foreign exchange as well as realized and unrealized gains or losses to investments at fair value. All of which are removed from cash generated from operations prior to working capital adjustments, which is why we've determined it is the most comparable figure within our financial statements.

HISTORIC FINANCIAL SUMMARY

Totals		34,027	\$650,675		

APPENDIX C: TRUST CONVERSION

- After receiving shareholder approval on August 31, 2020, Alaris Royalty Corp. converted to an income trust on September 1, 2020 and changed its name to “Alaris Equity Partners Income Trust” (“Alaris” or the “Trust”).
- The common shares of Alaris Royalty Corp. (AD) were delisted at the end of day on September 3, 2020 and the Trust units began trading on the TSX on September 4, 2020 under the symbol TSX: AD.UN
- The conversion to the Trust resulted in a deemed disposition of the common shares in AD. Shareholders of AD received 1 trust unit of AD.UN for every 1 common share held in AD.
- The debentures outstanding continue to trade under the symbol AD.DB.
- The Trust believes the conversion will enhance long-term shareholder value as a result of:
 - A materially simplified cross-border investment structure involving fewer foreign jurisdictions, which should reduce compliance and other administrative costs and Alaris' exposure to changes in foreign laws;
 - Increasing the amount of cash available for distribution to unitholders and reducing the Payout Ratio; and
 - Allowing Alaris to comply with applicable US legislation while maintaining an internal efficiency substantially consistent with Alaris' prior corporate structure.
- As an income trust, Alaris is paying a trust distribution rather than a corporate dividend. The first trust distribution was declared in September 2020 and paid October 15, 2020. On July 28, 2021, Alaris announced an increase of \$0.08 (6.5%) per unit to its distribution payable October 2021. The Annualized distribution will now be \$1.32 per unit (\$0.33 per quarter).
- For more information, please visit our website at www.alarisequitypartners.com and search for documents under the “investor section” or visit www.sedar.com and search for documents under Alaris' corporate profile.

NON-GAAP MEASURES & OTHER FINANCIAL MEASURES

The terms EBITDA, Payout Ratio, Run Rate Payout Ratio, Earnings Coverage Ratio, and IRR (collectively the “Non-GAAP and Other Financial Measures”) are financial measures used in this presentation that are not standard measures under International Financial Reporting Standards (“IFRS”). The Trust’s of calculating EBITDA, Payout Ratio, Run Rate Payout Ratio, Earnings Coverage Ratio, and IRR may differ than from methods used by other issuers. Therefore, the EBITDA, Payout Ratio, Run Rate Payout Ratio, Earnings Coverage Ratio, and IRR amounts may not be comparable to similar measures used by other issuers.

EBITDA is a Non-GAAP financial measure and refer to earnings determined in accordance with IFRS, before depreciation and amortization, interest expense (finance costs) and income tax expense. EBITDA is used by management and many investors to determine the ability of an issuer to generate cash from operations, aside from still including fluctuations due to changes in exchange rates and changes in the Trust’s investments at fair value. Management believes EBITDA is a useful supplemental measure from which to determine the Trust’s ability to generate cash available for servicing its loans and borrowings, income taxes and distributions to unitholders. The Trust provides a reconciliation of earnings to EBITDA in its quarterly and annual management discussion and analysis.

Payout Ratio: is a supplementary financial measure and refers to Alaris’ total cash distributions paid during the period (annually or quarterly) divided by the actual net cash from operating activities Alaris generated for the period. It represents the free cash flow after distributions paid to unitholders available for either repayments of senior debt and/or to be used in investing activities.

Run Rate Payout Ratio: is a Non-GAAP financial ratio that refers to Alaris’ total distribution per unit expected to be paid over the next twelve months divided by the free cash flow per unit calculated in the Run Rate Cash Flow table. Run Rate Payout Ratio is a useful metric for Alaris to track and to outline as it provides a summary of the percentage of the free cash flow that can be used to either repay senior debt during the next twelve months and/or be used for additional investment purposes.

Earnings Coverage Ratio (“ECR”) is a supplementary financial measure and refers to the EBITDA of a Partner divided by such Partner’s sum of debt servicing (interest and principal), unfunded capital expenditures and Distributions to Alaris. Management believes the earnings coverage ratio is a useful metric in assessing our Partners’ continued ability to make their contracted Distributions.

IRR is a supplementary financial measure and refers to internal rate of return, which is a metric used to determine the discount rate that derives a net present value of cash flows to zero. Management uses IRR to analyze partner returns.

The terms EBITDA, Payout Ratio, Run Rate Payout Ratio, Earnings Coverage Ratio, and IRR should only be used in conjunction with the Trust’s annual audited and quarterly reviewed financial statements, which are available on SEDAR at www.sedar.com.

Date of Presentation: Information contained herein is given as of August 9, 2022 unless otherwise stated.
